Summary

Passionate and dedicated computer science student pursuing B-Tech in Computer Science from Gita Autonomous College, Bhubaneswar. Keen interest in Python and data structures with hands-on experience gained through a web development internship. Recognized for strong problem-solving skills and quick learning abilities. Demonstrated ability to apply theoretical knowledge in practical settings.

Experience

Full Stack Web Developer • Sinfolix Technologies **Oct 2023 - Present**

- Created and executed a chatting application, improving communication efficiency by integrating features for real-time messaging and file sharing.
- Built a responsive e-commerce website, elevating user experience through intuitive navigation, attractive design, and streamlined checkout process, resulting in a significant boost in sales growth.
- Revamped operational processes, leading to higher levels of customer satisfaction and a notable increase in revenue generation.

Web Developer • GauravGo Technologies **Jul 2023 - Aug 2023**

- Developed a personal portfolio website showcasing my projects and skills, resulting in increased visibility and credibility for my work
- Designed and implemented a user-friendly interface for the portfolio website, resulting in improved user experience and engagement

Python Developer • LearnSmasher **May 2023 - Jun 2023**

- Developed a temperature converter application that allowed users to convert between Celsius and Fahrenheit with ease, enhancing user convenience and promoting efficient calculations.
- Designed and implemented a currency converter tool that enabled users to effortlessly convert between various currencies, facilitating seamless financial transactions and improving global business operations.

Education

Bachelor of Technology - BTech • GITA Autonomous College, Bhubaneswar **Sep 2020 - Present**

Computer Science & Engineering • Grade: 9.0

- Achieved a Bachelor's degree in Computer Science, specializing in Frontend Development, by consistently surpassing the expectations of a challenging curriculum.
- Demonstrated exceptional proficiency in frontend tools and languages, including HTML, CSS, and JavaScript, through the successful completion of rigorous assignments and active participation in immersive practical projects.

Intermediate • Model School Dalmianager

Apr 2018 - Apr 2020

Physics, Chemistry and Math • Grade: 72.2

matriculation • Model School Dalmianagar

Apr 2017 - Apr 2018

Grade: 72

Projects

Online Chatting Application

Nov 2023 - Dec 2023

Sinfolix Technologies

- Developed an online chatting application to facilitate real-time communication between users.
- Implemented features such as user registration, login authentication, and chat room creation.
- Utilized technologies such as HTML, CSS, and JavaScript to create a user-friendly and visually appealing interface.

Personal Portfolio

Apr 2023 - Jun 2023

GITA Autonomous College, Bhubaneswar

- Developed a personal portfolio website using React-js to showcase my skills and projects
- Created a modern and visually appealing UI/UX design to enhance user experience
- Implemented responsive web design to ensure optimal viewing experience across different devices

Food Ordering Website

Jan 2023 - Mar 2023

GITA Autonomous College, Bhubaneswar

- Developed and launched a user-friendly food ordering website to streamline the process of ordering food for customers.
 - Implemented a secure and efficient platform for customers to browse menus, select items, and place orders with ease.
 - Utilized responsive design techniques to ensure optimal user experience across different devices.
-

Achievements and Awards

Engineering Equity Hackathon

Feb 2023

During the Engineering Equity Hackathon, I successfully collaborated with a diverse team of engineers to develop and implement innovative solutions. Utilizing my strong problem-solving skills, I led the team in designing and constructing a prototype that addressed the issue of equity in engineering education.

Skills

c programming, react-js, javascript (basics), CSS (basics), python (basics), DBMS Basics, Data Structures, Html 5
